The Falling of Dusk

Why should Christians embrace suspicious doubt? Can a suspicious Christianity challenge doubters? On 12 January, we hosted a book launch for Dr Paul Dominiak's new book on religious doubt, The Falling of Dusk, and ran a panel discussion and Q&A.

Building sustainable communities

On 1 February, we were joined by Yasmeen Lari, 'architect for the poorest of the poor' and Pakistan's first female architect, and heard about her work in Pakistan following the 2022 flooding and her vision for the future of sustainable architecture.

Hacktivism and Black creativity

George Hofstetter started his tour to Historically Black Colleges and Universities (HBCUs) across the US to inspire people to build at the intersection of disruptive innovation and social justice with us on 7 February with a powerful panel discussion.

Enhancing vaccine uptake

On 7 February, we hosted a discussion about how to make our world safer by helping public health leaders understand the impediments to vaccine uptake in order to develop innovative strategies to address low vaccination rates.

On 9 February, Nadine Akkerman joined us to give the annual Lisa Jardine Memorial Lecture, speaking on editorial practice and letters. She asked: what do we do when editors and archivists wilfully mislead us?

Technology and geopolitics

On 20 February, Professor Alexander Evans OBE drew on his diplomacy career for the UK, US, and UN, including as Britain's chief cyber negotiator, to discuss how the interplay between geopolitics and technology will shape the decades ahead.

The next generation: navigating the age of generative AI

On 1 March, AI expert Henry Ajder mapped the ways generative AI and synthetic media are already transforming society and explored the key challenges that will define our digital lives.

Beyond online safety

With advances in AI, web3 technologies, and the metaverse, this panel event on 20 March asked: how should policymakers respond? It considered emerging forms of technology, the unintended online harms they might produce, and what can be done to mitigate them.

The Curiosity Incubator at the Intellectual Forum: an 'Accelerator for Good'

On 24-25 January, Intellectual Forum Senior Research Associate Bridget Gildea held the pilot of her Curiosity Incubator, an 'Accelerator for Good' which, instead of testing business ideas or individual capabilities to make a profit, accelerates the testing of ideas for solutions to our biggest problems. Intellectual Forum Director Dr Julian Huppert attended the Curiosity Incubator pilot, and shares his experience below.

Part of the mission of the Intellectual Forum is to make a positive difference in the world – a very broad and lofty aspiration! I was therefore delighted when one of our Senior Research Associates, Bridget Gildea – an experienced leadership trainer and educator, now a 'Consultant for Good' – suggested that with the consultant for Good' – suggested that with the consultant for Good' by the c

Julian of Norwich: mother, mystic, radical with Dr Claire Gilbert

Thursday 20 April, 19.30, Frankopan Hall and online

The 14th century visionary Julian of Norwich was the first woman, as far as we know, to write in English. Julian is the subject of Claire Gilbert's research and forthcoming book Restoring Porosity: Julian of Norwich and Ecological Consciousness, but when Claire was diagnosed with cancer Julian ceased to be an academic object and became Claire's spiritual companion through two and a half years of gruelling treatment. As the treatment drew to a close, Claire heard what can only be described as a call to tell Julian's story in the first person, in homage to her. Claire will speak about her own 'vision' of Julian's life, which was lived in times as turbulent as our own, and read from her novel.
